## DIRECTORY RESTORATION/PRESERVATION PRODUCTS AND SERVICES

Although there are many qualified architects, contractors, and building trade craftsmen in the Washington metropolitan area, it is difficult to identify those with experience in the restoration of older buildings, a very specialized field. To assist you in locating qualified professionals, the staff of M-NCPPC's Historic Preservation Section has collected the names of area architects, contractors, and craftsmen.

This list is not intended to be all-inclusive or to be viewed as an endorsement by the Historic Preservation Commission of the professionals included in it. Since the Commission cannot vouch for the quality of their work, we urge you to visit completed projects and to talk with the property owners about their experience with a particular firm or individual. We also urge you to ask for certification of appropriate licenses and bonding.

The Commission welcomes your suggestions regarding individuals or firms that should be added to or deleted from the list. An index to the list appears below:

Appraisals	Landscape Architects/Historic Landscape Analysis
