

How to Access planned rights-of-way on PG ATLAS

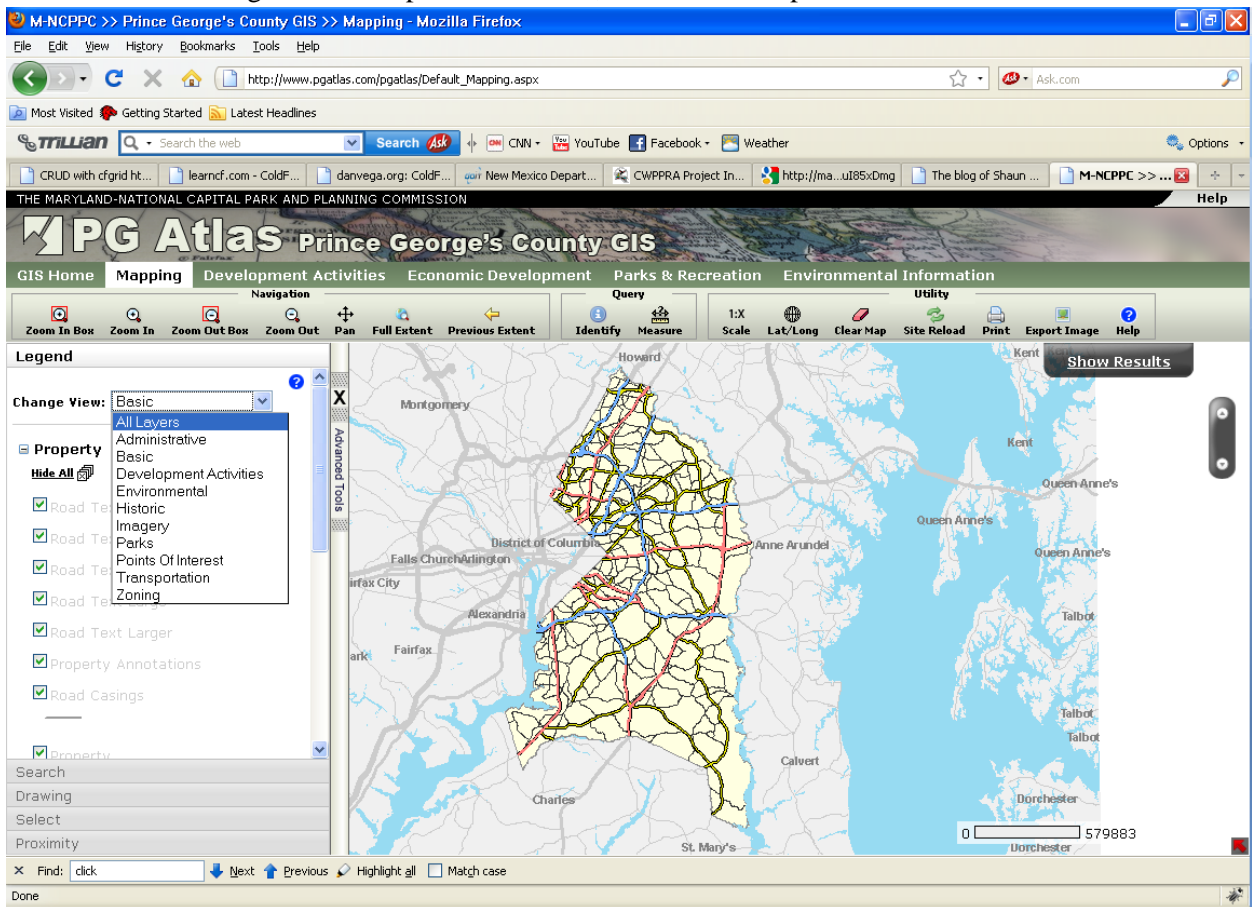

1 In the URL window of your browser (explorer), type “PGATLAS.COM”

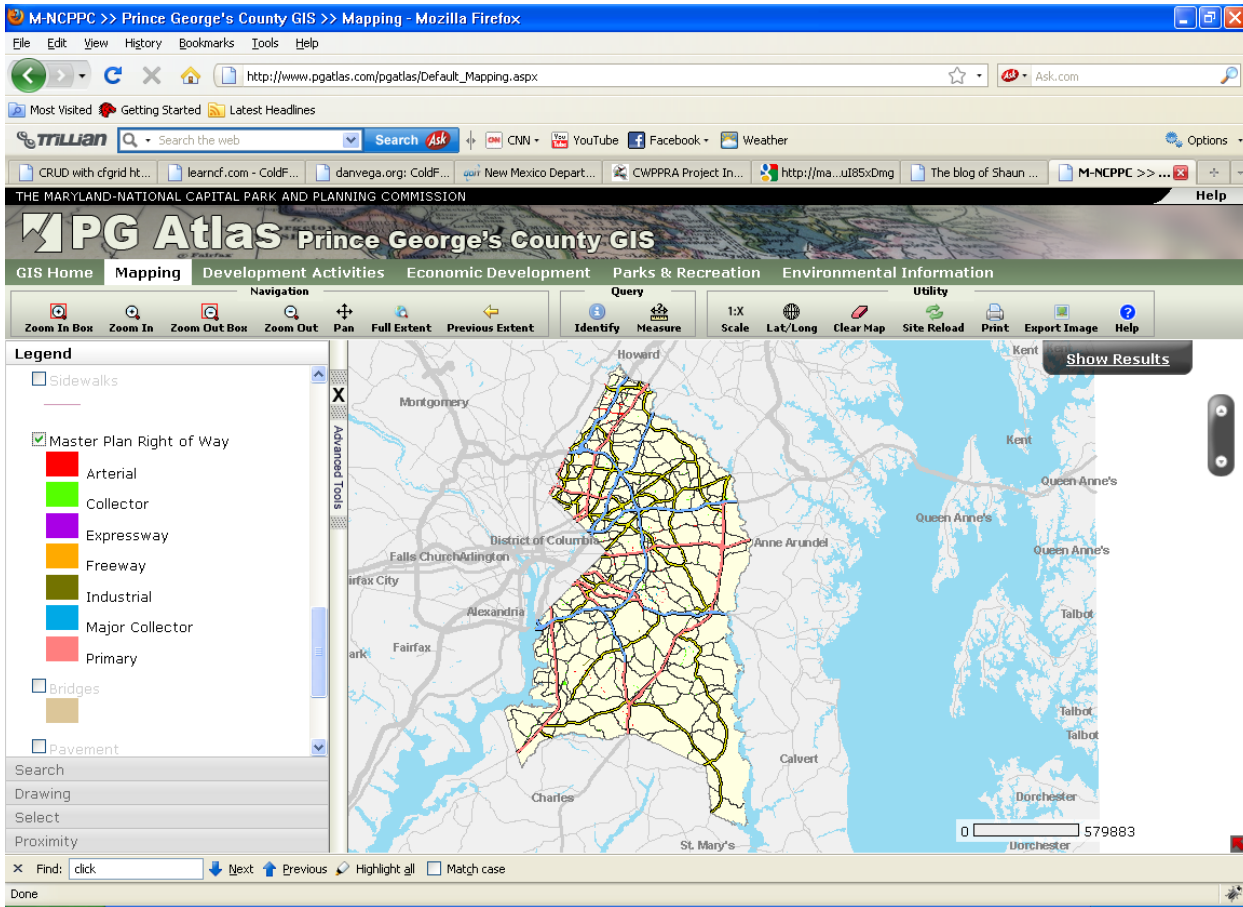

2 click on the tab “Mapping” at the top of the page

3 In the “Change View” drop down window, click on “Transportation”

4 Scroll down to “Master Plan Right of Way” and check the box

The map to the right will now display the master plan rights of way on a countywide scale. You may zoom in to see a smaller area by clicking on the “Zoom In Box” button (above the word “legend”) and while holding down the left button on the mouse, create a box that represents the area of interest. The map to the right will now display an area based on the box that was created with the mouse.
