

DEVELOPMENT REVIEW BULLETIN

Bulletin No. 1-2020

Subject: Deadline for Revised Information

Resource: Development Review Division

Date: January 21, 2020

The Development Review Division (DRD) of the Prince George's County Planning Department has been diligently reviewing our existing practices to improve customer services. As a part of these improvements, we are updating our current development review plan submittal procedures. Deadlines for revised information are established by staff through the review process based on the Planning Boards Rules of Procedure, Code requirements, major revisions needed, and coordination needed for review.

Effective January 21, 2020 all revised information for accepted development review applications must be submitted by 12 noon on the deadline date. The new deadline will provide staff adequate time to refer the submittal packages to the appropriate staff and perform a quality review. In addition, the new deadline will also provide adequate time for staff and applicants to improve communication efforts associated with development review cases.

If you have any questions or need additional information, please contact Cheryl Summerlin, Development Review Division, at 301-952-3578 or via email at Cheryl.Summerlin@ppd.mncppc.org.
